

**REMARKS**

In the preliminary amendment filed on August 19, 2002, in the subject patent application, lines 9 and 10 of the newly added claim 22 were inadvertently repeated. This supplemental preliminary amendment is filed to correct claim 22.

Respectfully submitted,

RATNER & PRESTIA

**VERSION WITH MARKINGS TO SHOW CHANGES MADE**

The claims have been amended as follows:

1           22. (Twice Amended) A carrier configured to hold a container  
2 having a door mounted for reciprocation between opened and closed  
3 positions, said carrier comprising:

4           a body adapted to receive the container; and

5           an elongate arm coupled to said body for reciprocal extension along an  
6 axis of said arm between an extended position and a retracted position with  
7 respect to said body, said arm being adapted for engagement with the door of  
8 the container, and said reciprocal extension of said arm being adapted to  
9 reciprocate the door of the container in the direction of said axis between the  
10 opened and closed positions.

9           [reciprocate the door of the container in the direction of said axis  
10 between the opened and closed positions.]
